

2017-08-31

Program for Joint Seminar

(Dept. of Statistics & Stress Research Institute, Stockholm Univ.)
Friday 8 September 2017, Room B705 (House B, 7th floor, Frescati).

- 13:00 – 13:15: Professor Hugo Westerlund (Stress Research Institute)
 - Research at the Stress Research Institute: An Overview
 - The Swedish Longitudinal Survey of Health (SLOSH)/ Challenges of Causal Inference in Observational Studies

- 13:15 – 13:30: Docent Linda Magnusson Hanson (Stress Research Institute)
 - Causal Inference and Mediation Analysis

- 13:30 – 13:45: Dr. Kristiina Rajaleid (Stress Research Institute)
 - Trajectory Methods and Latent Class Growth Analysis

- 13:45 – 14:00: Dr. Paraskevi Peristera (Stress Research Institute)
 - B-spline Group Trajectory Analysis
 - SEM (Dynamic Panel) Models with Cross-lagged Effects

- **14:00 – 14:15: Coffee Break**

- 14:15 – 14:30: Professor Gebrenegus Ghilagaber (Department of Statistics)
 - Research at the Department of Statistics: An Overview
 - Interdependencies over the life course and multiprocess modeling

- 14:30 – 14:45: Docent Tatjana von Rosen (Department of Statistics)
 - Reduced Rank Regression and Growth Curve Models

- 14:45 – 15:15: Professor Dan Hedlin (Department of Statistics)
 - Some comments on nonresponse in surveys

- 15:15 – 15:30: **Summary and future plans**
- 15:30 – 16:00: **Coffee and refreshments**
